

ASHG Developing Country Travel Awards

ASHG is providing 10 scholarship awards (\$2,500 each) for individuals living in countries [categorized by the World Bank](#) as having low-income or lower-middle-income economies, who submitted abstracts to the ASHG 2016 Annual Meeting. Developing Country Awards are to help defray the costs of airfare, hotel, meals, and registration. The selection of the winners was based on abstract score and supporting documentation.
