

Match the Board of Directors Member with Their Graduate Thesis/Fellowship Topic

*The three individuals with the most correct responses returned via fax by May 22, 2007, will receive an *AJHG* T-shirt.

- | | |
|-------------------------|---|
| 1. Stephen Warren | a. Genetics of Type II Collagen |
| 2. Wylie Burke | b. The Cyclization of Eukaryotic DNA |
| 3. David Nelson | c. Identification of a cAMP Response Element in the promoter of PEPCK |
| 4. Aravinda Chakravarti | d. Initiation of Chromosome Replication in Yeast |
| 5. Daniel Van Dyke | e. Population Genetic Studies in Retinitis Pigmentosa |
| 6. Peter Byers | f. Clinical Manifestations of Inherited Eye Diseases |
| 7. Joann Boughman | g. Genetic Defects of Amino Acid and Phosphate Transport in the Mammalian Kidney |
| 8. Cynthia Morton | h. Inbreeding and Pre-reproductive Mortality in the Old Order Amish |
| 9. Miriam Blitzer | i. Influence of Social Structure on Recidivism in a State Mental Hospital |
| 10. Michael Boehnke | j. Isolation of Peptide from Cystic Fibrosis Sera Affecting Tracheal Mucociliary Function |
| 11. Charis Eng | k. The Human Nucleolus Organizer Region: A Cytogenetic, Biochemical and Molecular Genetic Investigation |
| 12. Muin J. Khoury | l. Human Chromosome Polymorphism: Heritability and Usefulness in Twin Zygosity Evaluation |
| 13. Mary-Claire King | m. The Utility of Linked Marker Genes for Genetic Counseling |
| 14. Roderick McInnes | n. Bloom Syndrome as a Human Mutator Mutation |
| 15. Roberta Pagon | o. Genetics at Two Levels in Humans and Chimpanzees |
| 16. Reed Pyeritz | p. Advances in Pedigree Analysis: Ascertainment, Goodness of Fit, and Optimization |
| 17. Tony Wynshaw-Boris | q. Chromosome Transfer of Introduced Selectable Markers: Use in Gene Mapping and Isolation |
