

ASHG/Charles J. Epstein Trainee Awards for Excellence in Human Genetics Research

ASHG congratulates all the semifinalists and finalists for the **2019 ASHG ASHG/Charles J. Epstein Trainee Awards for Excellence in Human Genetics Research**. These merit-based awards honor excellence in research conducted by trainees and recognizes highly competitive abstracts submitted and presented at the ASHG Annual Meeting. The Awards Committee will evaluate the finalists' presentations at the ASHG Annual Meeting in Houston, Texas, and will determine six winners.

Predoctoral	Postdoctoral
<p style="text-align: center;">Finalists</p> <p>Michelle Dow, University of California, San Diego Won-Seok Lee, Baylor College of Medicine Sigurgeir Olafsson, Wellcome Trust Sanger Institute Joseph Park, University of Pennsylvania Katherine Rhodes, University of Chicago Saori Sakaue, Osaka University Joshua Scott Weinstock, University of Michigan School of Public Health Manar Zaghlula, Baylor College of Medicine Xinyuan Zhang, University of Pennsylvania Perelman School of Medicine</p>	<p style="text-align: center;">Finalists</p> <p>Muhammad Ansar, University of Geneva Diana Cousminer, Children's Hospital of Philadelphia Beryl Cummings, Broad Institute Ashish R. Deshwar, The Hospital for Sick Children Linda Kachuri, University of California, San Francisco Siddhartha Kar, University of Cambridge Ning Liu, Baylor College of Medicine Chelsea Lowther, Massachusetts General Hospital Wei Zhou, Broad Institute</p>
<p style="text-align: center;">Semifinalists</p> <p>Marcus Alvarez, David Geffen School of Medicine, UCLA Arianna Anzmann, Johns Hopkins University School of Medicine Rena E. Bertrand, Baylor College of Medicine Sarah E. Brnich, University of North Carolina, Chapel Hill Ryan Collins, Broad Institute Katerina Gawronski, University of Pennsylvania Perelman School of Medicine Jian Hu, University of Pennsylvania Perelman School of Medicine Paul W. Hook, Johns Hopkins University School of Medicine Justin Lakkis, University of Pennsylvania Yu-Chung Lin, University of Toronto Pamela Dee-Ana Lurie, Baylor College of Medicine Andrew Reid Marderstein, Weill Cornell Medicine Rebecca Meyer-Schuman, University of Michigan Zhen Miao, University of Pennsylvania Perelman School of Medicine Kiana Mohajeri, Massachusetts General Hospital Juba Nait Saada, University of Oxford Nathan Nakatsuka, Harvard Medical School Aparna Nathan, Harvard Medical School Manon Oud, Radboudumc Marta Pérez Alcántara, University of Oxford Evan Udine, Icahn School of Medicine, Mt. Sinai Hospital</p>	<p style="text-align: center;">Semifinalists</p> <p>Musaddeque Ahmed, University Health Network Carmen Amador, University of Edinburgh Brunilda Balliu, University of California, Los Angeles Gillian Belbin, Icahn School of Medicine at Mount Sinai Christos Chatzinakos, Harvard Medical School/ McLean Kathryn Demanelis, University of Chicago Yi Han, University of Southern California Pamela Sara Elbaz Head, National Human Genome Research Institute Jie Hu, Brigham and Women's Hospital and Harvard Medical School Peter Joshi, University of Edinburgh Kevin Keys, University of California, San Francisco Fumin Lin, Children's Hospital of Philadelphia Yafei Lyu, University of Pennsylvania Perelman School of Medicine Layan Nahlawi, Northwestern University Chloe Robins, Emory University School of Medicine Marco Savarese, Folkhälsan Research Center Debora Sobreira, University of Chicago Jun Wang, Baylor College of Medicine Xiaoliang Wang, Fred Hutchinson Cancer Research Center Florian Wuennemann, Montreal Heart Institute Weichen Zhou, University of Michigan Medical School</p>
